Dear shareholders,

We want to remind you that from 3 April 2016, in due application of the article L 225-123 of the Code de Commerce (French commercial code) as amended by Law no. 2014-384 of 29 March 2014, Aéroports de Paris fully-paid shares for which it is justified that they were held in a registered form in the name of the shareholder for at least 2 years are automatically granted double voting right.

As a consequence to the application of this article, your voting rights may cross, downwards or upwards, some legal and/or statutory[1] thresholds. If it occurs, to comply with dispositions prescribed by article L233-7 of the Code du Commerce (French commercial code) and/or 9 of Aéroports de Paris status, for the first time and without any harm concerning the possible future declarations, you will have to declare by yourself the voting right thresholds you crossed, before financial markets closing on 7 April 2016[2].

From 3 April 2016, Aéroports de Paris will publish at the end of each month (and for the first time, on Monday 4 April 2016) on its website at the following address: http://www.aeroportsdeparis.fr/en/group/finance/amf-information :

- The total number of gross voting rights, corresponding to total number of voting rights attached to shares composing Aéroports de Paris capital, including shares without voting right. To calculate threshold crossing, shareholders will have to compare their number of voting rights to the total number of gross voting right (in due application of article 223-11 of General Regulation of Financial Market Authority);

- The total number of net voting rights[3].

Mrs. Aurélie Cohen, head of Investor Relations, remains available for every precision on that subject.
