Every year, Aéroports de Paris welcomes more than 90 million passengers. Allow us to guide your guests from the airport to the event and back again with ease.

With our flexible and complementary packages, you can create a customised welcome route. You can combine visible, reassuring markers at each stage:

- welcome bunting,
- a mobile display panel,
- a welcome desk,
- dedicated parking.

welcome bunting an immediate visual impact

Would you like to look after your visitors as soon as they leave the plane?

Give them a personalised welcome with welcome bunting in your event colours.

- **More visibility**

The first stage of the welcome, the welcome bunting allows you to make immediate contact with your visitors.

- **Greater ease**

It is reassuring for your guests. As soon as they leave the plane, they recognise the event and feel welcomed in person.

And for an even better welcome

Enhance your welcome with our Tourist Information Areas. Organised in partnership with the Île-de-France Region, they will help your event to run even more smoothly.

a mobile display panel constant assistance

Keep in touch with your visitors throughout their journey. The mobile display panels will guide them smoothly through the airport with ease.

- **More signs**

To optimise the welcome journey, Aéroports de Paris recommends strategic positionings for display panels. Your guests will thus be guided all the way through the terminal to the shuttles, and vice versa.

- **More information**

These panels are working signage systems which can also relay practical information e.g. the timetable for the shuttles travelling to the event location.

mobile welcome desk a friendly point of contact

Add a friendly touch to your welcome journey. By incorporating a mobile welcome desk, you create an ideal meeting point to welcome and advise your passengers.

- **More closeness**

The welcome desk allows you to take care of your guests upon their arrival or before they depart. Available with or without a hostess, it remains a key point of contact.

- **A more customised feel**

The welcome desk will allow you to dispense information to your visitors and pass on useful travel documents: a badge, map, programme, etc.
