In compliance with the French Transport Code, Aéroports de Paris reports its airport fee schedule for the 2026 pricing period (1<sup>st</sup> April 2026 – 31<sup>st</sup> March 2027), which is enforceable at the soonest one month after this publication.

The passenger assistance fee for passengers with disabilities or reduced mobility has been approved by the French independent supervisory authority ("Autorité de regulation des transports") in its decision n°2025-092 of 16 December 2026.

The fees presented hereafter will be enforceable from 1<sup>st</sup> April 1<sup>st</sup> 2026 to 31<sup>st</sup> March 2027.

However, in its decision n°2026-009 of 10 February 2026, the "Autorité de regulation des transports" refused to approve the second proposal for the 2026 pricing period. Therefore, in accordance with the provisions of article R.6325-35 of the French Transport Code, the tariffs applicable for the 2025 pricing period remain applicable for the 2026 pricing period, with the exception of the passenger assistance fee for passengers with disabilities or reduced mobility, which have been approved and are presented below.

### **1. Passenger assistance fee for passengers with disabilities or reduced mobility**

The fee is based on the total number of departing passengers at the Paris – Charles-de-Gaulle and Paris - Orly airports, except the persons mentioned in Article 6 of the bylaw of 26 February 1981 governing the conditions for establishing and collecting user fees on facilities for handling passengers and merchandise at the airports in France and the French overseas territories.

The fee for assistance to passengers with disabilities or reduced mobility (PRM) is subject to an adjustment based on the airline's pre-notification performance.

Definition of pre-notification:

The pre-notification is the fact that a company notifies the airport at least 36 hours before the flight departure time of the arrival of a disabled passenger or reduced mobility departing, arriving or connecting according to the procedure set up by Aéroports de Paris.

Calculation methods:

The calculation of the airline's pre-notification performance will be calculated as follows:

$$\frac{\text{Number of PRM notified at the latest 36 hours before flight}}{\text{Number of services provided to PRM}}$$

- The number of service provided to PRM will be the number ordered and validated ;
- The number of service provided to PRM will be taken into account if it is the subject of a notification, with a separation between the date of receipt and date of arrival / departure of the flight to Paris at least 36 hours ;
- The reconciliation between the number of PRM notified at the latest 36 hours before the flight and the number of services provided to PRM ordered and validated will be conducted flight by flight and non-nominatively manner ;

Implementation method:

- The calculation of the airline pre-notification performance will be based on the period from August 2024 to July 2025 for the 2026 pricing period ;
- For future pricing periods (n), the calculation of the airline pre-notification performance will be based on the period and from August n-2 to July n-1 ;
- Companies with a number of PRM below 50 per year on the period of calculation or starting their operations from 1 August 2025 would be charged the rate corresponding to the category 3.
