GREENER FUTURE

YOUR AIRPORTS' FIRST STEP
INTO A CARBON FREE WORLD
IS TO SEEK EXPERT GUIDANCE.
GROUPE ADP IS YOUR IDEAL
CONSULTANT FOR THAT

THE AIRPORT CARBON ACCREDITATION (ACA)

gives a common framework to airports to effectively manage and reduce their emissions of CO₂ and other greenhouse gases, it assesses and emphasizes the commitment of airports in reducing their carbon footprint, as well as facilitating the sharing of expertise, exchange of knowledge and communication in respect to CO₂ reduction and improvement measures.

As an active stakeholder on environmental topics (member of ACA Task Force within ACI and founding member of Airports for Trust), Groupe ADP provides consulting services aiming to assist you in getting organized and prepared for the process of Airport Carbon Accreditation:

- 1. COMMUNICATION, PEDAGOGY AND PROMOTION** of the ACA principles: general approach, explanation of the certification process objectives, benefits and levels.
- 2. INTRODUCTION TO THE ACA REQUIREMENTS** related to the level of accreditation targeted.
- 3. INSIGHT ON THE METHODOLOGICAL APPROACH** to be followed, in line with the level targeted: data to collect, where to collect, way to process the data.
- 4. MAPPING OF STAKEHOLDERS TO GET INVOLVED IN THE PROCESS.**
- 5. RECOMMENDATIONS IN THE DEFINITION OF MACRO ACTION PLAN** to be implemented by the airport to comply with ACA level requirements.

WHY OUR ACA CONSULTING IS THE MOST RECOMMENDED FOR YOUR AIRPORT

- ◆ **YOU GET THE BEST OF A TAILOR-MADE APPROACH** adapted to your ambitions in terms of ACA level and in accordance with data availability. As an airport operator itself, Groupe ADP fully embraces your operational challenges.
- ◆ **TIMELY REDUCTION OF YOUR ENERGY COSTS** Our recommendations will help you benefit from increased environmental efficiency and lowered energy consumption. This is enabled by the implementation of sustainable alternatives and process optimization.
- ◆ **UPLIFTS YOUR BUSINESS** demonstrating your commitment to manage and reduce your airport's carbon footprint. Your accreditation will be seen as the hallmark of this commitment to your stakeholders and to the general interest.
- ◆ **YOU BENEFIT FROM GROUPE ADP EXPERIENCE AND FEEDBACKS** in sustainable ways to reduce CO₂ emissions. For instance, Parisian airports operated by Groupe ADP have reduced by 71% their net emissions of CO₂ per passenger between 2009 and 2019.
