

# CYBER SECURITY

**GROUPE ADP**  
Airport Services

FOR GREAT AIRPORTS,  
CYBER SPACE  
IS AS IMPORTANT  
AS AIRSPACE

In collaboration with **Sysdream** (Cyber security Division of **HubOne**, a fully owned subsidiary of Groupe ADP providing digital technology solutions), we support our clients worldwide to make their airports and their Information Systems more protected.

## WE PROVIDE YOU WITH A WIDE RANGE OF SOLUTIONS TO ADDRESS EACH STAGE OF THE CYBER SECURITY CHAIN:

- ◆ **Technical audit and reviewing of organization and processes**, based on robustness tests and integrity assessment.
- ◆ **Deployment of relevant technical solutions** to anticipate risks by securing information systems
- ◆ **Learning and cyber challenge trainings**
- ◆ **Remote surveillance and identification of intrusions** through a SOC - Security Operation Center
- ◆ **Resources for remediation actions oriented against intrusions** through a CERT - Computer Emergency Response Team

GROUPE ADP'S  
CYBER SECURITY SERVICES,  
A COMPLETE SOLUTION TO  
ADDRESS THE CYBER SECURITY  
CHALLENGES

As strategic assets, airports are potential targets for malicious attacks and intrusions, not only in their physical infrastructures, but also in their Information Systems and communications network.

For Groupe ADP, cyber security is therefore a paramount concern and needs to be carefully taken into consideration in the definition of an airport's system architecture.

**GROUPE ADP IS YOUR FIRST PARTNER  
TO DEVISE AND DEPLOY YOUR CYBER  
SECURITY STRATEGY.**

**WHY OUR CYBER SECURITY SERVICES ARE THE MOST RECOMMENDED FOR YOUR AIRPORT**

- ◆ **YOU TEAM UP WITH CERTIFIED EXPERTS.**  
HubOne holds PASSI qualification (and PDIS is in progress). All our experts are also certified by the best international standards. HubOne team includes around 80 cyber security professionals and covers all the expertise needed to provide you the best solutions. They consider organizational schemes and staff training as key factors to sustainably address and respond cyber security issues.
- ◆ **YOU LEARN FROM A CONSTANT FEEDBACK.**  
Our expertise is continuously enriched by regular feedbacks from other case studies in various industries and from our own experiences in other airports which we have worked on.

**GROUPE ADP,  
A SAFER  
CYBERSPACE  
FOR ALL AIRPORTS**

Since the dawn of the digital era, cyber security has become a critical topic and a major issue for airports. Not only the platform's overall capacity to avoid incoming cyber attacks or to recover from such strikes is at stake, but also its long term business reliability and reputation can be affected.

To tackle these threats, Groupe ADP supports you in all the aspects of cyber security: definition and deployment of robust organizations, implementation of efficient tools and processes to assess the vulnerabilities, anticipate the risks and mitigate the impacts.
