Aéroports de Paris: February 2008 traffic figures

Passenger traffic figures

In February 2008, Aéroports de Paris handled 6.1 million passengers, an increase of 3.5% on February 2007. Paris-Charles de Gaulle airport recorded a gain of 5.7% to 4.2 million passengers and Paris-Orly airport was down 1.1% to 1.9 million passengers.

February traffic figures are attributable to the increase in traffic on European and international routes.

Domestic traffic fell by 5.8% due principally to the strike by DGAC air traffic controllers at Paris-Orly and to the traffic slowdown on routes to and from Strasbourg.

European traffic grew by 5.7% thanks to Schengen traffic (7.6%) and traffic on routes to and from the twelve¹ new European Union members (6.4%). The British and Irish markets increased by 1.8%.

Traffic on the other international routes reached an 6.9 % increase. The North and Latin American markets rose by 5.5%. The African market was up 6.9%. A 8.4% increase was recorded on routes to and from Asia and the Middle East.

Passenger traffic

Aéroports de Paris builds, develops and manages airports including Paris-Orly, Paris-Charles de Gaulle and Paris-Le Bourget. Aéroports de Paris is the 2nd European airport group in terms of airport turnover and the 1st European airport group in terms of cargo and mail. Aéroports de Paris accommodates nearly 460 airlines, mainly the major actors of air transport.

Benefiting from an exceptional geographical location and a major trading area, the group's strategy is to modernize its terminal facilities and to upgrade its quality of service. It also intends to develop its retail and real estate business. In 2007, Aéroports de Paris Group had a turnover of 2,292.4 million euros. Aéroports de Paris handled 86.4 million passengers in 2007.
