Paris, 18 August 2008

## **Aéroports de Paris July 2008 traffic figures**

### **Passenger traffic figures**

In July 2008, Aéroports de Paris recorded a decrease of 0.5% in passenger traffic compared with July 2007. Paris airports handled 8.5 million passengers divided up between 6 million for Paris-Charles de Gaulle airport (+0.8%) and 2.5 million for Paris-Orly airport (-3.3%).

The slow down in traffic concerns primarily the domestic market (-3.7%) and Europe (-1.4%). These traffic segments were penalized by the economic context observed in Europe and by the strong rail competition on the domestic market. Traffic on Schengen routes fell by 1.6%. The British and Irish markets recorded a decrease of 4%.

On the other hand, traffic on the other international routes (except French Overseas Territories and Departments) remains dynamic with a 3.2% increase. The North and Latin American markets rose by 7%. The African market decreased by 0.2%. A 2.4% increase was recorded on routes to and from Asia and the Middle East. This growth in international traffic constitutes a very high performance taking into account a significant comparison basis (+8.1% increase in July 2007) on these destinations.

Aéroports de Paris builds, develops and manages airports including Paris-Charles de Gaulle, Paris-Orly and Paris-Le Bourget. Aéroports de Paris is Europe's second-largest airport services group in terms of airport revenues and the European leader for cargo and mail. Aéroports de Paris accommodates nearly 460 airlines, including the main companies in the air transport industry. With an exceptional geographic location and a major trading area, the Group is pursuing its strategy of modernizing its terminal facilities and upgrading the quality of services, and also intends to develop its retail and real estate business. In 2007, Aéroports de Paris Group had revenues of €2,292.4 million and handled 86.4 million passengers.
