

Paris, 15 March 2007

Aéroports de Paris 2006 annual results: Strong increase of operational results

- Revenue rose 8.1% to €2,076.8 million
- Strong EBITDA growth: up 11% to €664.7 million
- Group net income before non recurring items rose 19.6% to €200.6 million

Pierre Graff, Chairman and CEO of Aéroports de Paris, comments:

"The year 2006 marks the success of the strategy we outlined at the time of the Group's initial public offering. Thanks to the efforts of all our employees, Aéroports de Paris successfully managed to attract 82.5 million passengers and to create value from this traffic growth. Our operational results have strongly increased. We will pursue our efforts to boost passenger traffic growth with the opening of the new Satellite 3 in 2007. We will also continue to develop our commercial offer, enhance the value of our unique land reserves and expand the business of our subsidiaries.

KEY FIGURES (in millions of euros)	2005	2006	% change
Revenues	1920.8	2,076.8	+ 8.1%
EBITDA	598.6	664.7	+ 11%
Current operating income	337.5	390.9	+ 15.8%
Reported group net income Group net income before non	179.9	152.1	- 15.5 %
recurring items	167.7	200.6	+ 19.6%
Earnings per share		€1.64	
Proposed dividend per share		€0.94	

Group net income is presented both before and after non recurring items. In 2005, non-recurring items that had an impact on net income included a UNEDIC back payment, proceeds from insurance for the reconstruction of Terminal 2E and the transfer of air traffic control assets. In 2006, non-recurring items consisted mainly of expenses related to the IPO.

Aéroports de Paris builds, develops and manages airports including Paris-Orly, Paris-Charles de Gaulle and Paris-Le Bourget. Aéroports de Paris is the 2nd European airport group in terms of airport turnover and the 1st European airport group in terms of cargo and mail. Aéroports de Paris accommodates nearly 460 airlines, mainly the major actors of air transport.

Benefiting from an exceptional geographical location and a major trading area, the group's strategy is to modernize its terminal facilities and to upgrade its quality of service. It also intends to develop its retail and real estate business. In 2006, Aéroports de Paris Group had a turnover of 2,076 million euros, and it handled 82,5 million passengers.

I. GROUP RESULTS

Revenues increased 8.1% to €2,076.8 million, thanks to solid passenger traffic growth, up 4.8% to nearly 82.5 million passengers, dynamic commercial activity and the strong contribution of subsidiaries.

EBITDA rose 11% to €664.7 million due to tight control of operating expenses, up 4.8%:

- external services held at €524.6 million;
- personnel expenses rose 6% to €648.1 million, mainly attributed to staff increases at subsidiaries (staff at Aéroports de Paris SA declined by 1.8%);
- Purchases increased 14.5% to €121.6 million due to higher energy prices and the enlargement of Société de Distribution Aéroportuaire's scope of activity at Paris-CDG Terminal 1.

Current operating income increased 15.8% to €390.9 million.

Net finance costs were reduced by 4.8% to €84.5 million, from €88.8 million in 2005, reflecting higher interest income due to the increase in liquidity following the €600 million capital increase in June 2006¹.

Excluding non-recurring items, Group net income rose 19.6%

Reported net income contracted 15.5% to €152.1 million, from €179.9 million in 2005, but increased 19.6% to €200.6 million, from €167.7 million in 2005, after restating for non-recurring items.

In 2005, the main non-recurring items² were:

- exceptional income of €31.8 million corresponding to insurance proceeds for the reconstruction of the Paris-CDG Terminal 2E;
- an exceptional charge of €10.2 million corresponding to a UNEDIC back payment.

In 2006, non-recurring items were mainly related to the opening of the share capital:

- €33.3 million for advantages granted by the French State under the special offer for employees;³
- €9.6 million for the employee share purchase bonus as part of this offer;
- €9.9 million corresponding to external expenses relating to the opening of the share capital.

¹ Excluding IPO's costs

² The amounts of non-recurring items are indicated before impact on income tax

³ This €33.3 million charge is reported in the financial statements but did not result in a cash payout by the company

II. OPERATING PERFORMANCE BY SEGMENT

Traffic growth lifts Airport services

Revenues from airport services increased 7.9% to €1,726.4 million, thanks to a 4.8% increase in passenger traffic, the 5% tariff increase on 15 May 2006 and the Group's efforts to diversify its commercial offer.

EBITDA increased 9.8%, driven notably by the Group's efforts to increase productivity in this segment.

Current operating income rose 12.9% to €426.2 million.

Ground handling and related services: a tough year

Revenues from ground handling and related services rose 5.5% to €177.1 million. The increase in revenue from security services offset the decline in revenue from ground handling services.

The current operating loss widened to €17.4 million, which is €6.5 million more than in 2005.

The operating loss narrowed to €7.3 million in H2 2006, down from €10.1 million in the first half of the year. The Group launched a reorganisation project for the ground-handling segment and continues to target a return to breakeven by 2008.

New projects stimulate the real-estate segment

In 2006, real estate revenues rose 4.3% to €175.7 million, thanks to new real estate developments such as the new Air France-KLM flight crew facility at Paris-CDG and the La Poste regional mail-sorting centre at Paris-Orly.

Two non-recurring items had a negative impact on segment revenues: the transfer of €1.6 million in revenues from land leased to car rental agencies to the Airport Services segment, and the loss of €2 million in revenue due to the disposal of buildings to government agencies.

Current operating expenses declined 1.9%.

In 2006, current operating income for the segment rose 7.6% to €43.7 million.

Subsidiaries report strong revenue growth (Other Activities)

Other Activities generated revenues of €226.3 million, up 13.3% from 2005.

Current operating income increased 8.0% to €17.5 million.

This strong performance can be attributed mainly to:

- the 24.3% increase in revenues of Société de Distribution Aéroportuaire, which benefited from passenger traffic growth and the expansion of its scope of activity to the Paris-CDG1 Terminal in early 2006;
- the 4.1% increase in activities at Hub Telecom;
- the dynamic momentum of ADPi, up 23.1%, and Aéroports de Paris Management, up 1.3%, thanks to numerous new contracts in 2006, notably in the Middle East.

BALANCE SHEET

Net debt narrowed to €1,859.7 million in 2006 from €2,297.7 million in 2005, due to the increase in liquidity following the capital increase.

The net debt to EBITDA ratio improved significantly, to 2.8 in 2006 from 3.8 at year-end 2005.

DIVIDEND PAYOUT

The Board of Directors, after closing the 2006 accounts, decided to ask the Annual General Meeting of 29 May 2007 to approve a dividend of €0.94 per share for the year 2006. This would bring the dividend payout for Aéroports de Paris to 50% of Group net income, in addition to the €33.3 million in advantages granted by the French State as part of the special offer for employees.

OUTLOOK FOR 2007

In 2007, the Group is targeting:

- passenger traffic growth of between 3.7% and 4.2%,
- revenue and EBITDA growth that exceeds traffic growth.

This outlook is based on:

- a 4.25% increase in airport fees (including inflation) applicable on 1 April, after the 5% rate increase (including inflation) in the previous period;
- the expansion of Société de Distribution Aéroportuaire's scope of activity to Paris-Orly and to Paris-CDG Terminal 3 effective 1 January 2007.

Two highlights in 2007 will be the start-up of the CDG Val light rail system and the opening of Satellite S3. These new facilities will help strengthen the attractiveness of the Paris-CDG hub.

AGENDA

Publication of Q1 2007 revenues: 14 May 2007
Publication of H1 2007 revenues: 10 August 2007
Publication of H1 2007 results: 31 August 2007

Warning concerning forward-looking statements

Forward-looking statements are included in the above press release. They are based on data, assumptions and estimates deemed sensible by Aéroports de Paris. They notably include information regarding the financial condition, results of operations and business of Aéroports de Paris. These forward-looking statements include risks, uncertainties, most of which cannot be controlled by Aéroports de Paris and cannot be easily predicted. They can lead to results substantially different from the information included in the forward-looking statements. A list of risk factors can be found in the reference document filed on April 21, 2006 with the French financial markets authority (AMF) under the number 1.06-36.

Aéroports de Paris builds, develops and manages airports including Paris-Orly, Paris-Charles de Gaulle and Paris-Le Bourget. Aéroports de Paris is the 2nd European airport group in terms of airport turnover and the 1st European airport group in terms of cargo and mail. Aéroports de Paris accommodates nearly 460 airlines, mainly the major actors of air transport.

Benefiting from an exceptional geographical location and a major trading area, the group's strategy is to modernize its terminal facilities and to upgrade its quality of service. It also intends to develop its retail and real estate business. In 2006, Aéroports de Paris Group had a turnover of
