Revenue by business segment²

Growth in Aviation (+ 5.1%) to €331.2 million

In millions of euros	31 March 2010	31 March 2009	2010 / 2009
Aviation	331.2	315.2	+5.1%
Aeronautical fees	176.5	171.0	+3.2%
Ancillary fees	44.9	43.4	+3.5%
Airport tax	98.0	89.7	+9.2%
Other income	11.8	11.1	+6.2%

- **Aeronautical fees³** were hit by the drop in the number of aircraft movements during the period (- 5.7%). They were nonetheless supported by the slight increase in passenger traffic (+ 0.8%) and the price increase implemented under the Economic Regulation Agreement (+ 5.5% on average on 1 April 2009).
- Income from **ancillary fees** grew due to the €2.9 million rise in de-icing services caused by cold winter conditions.
- **The airport security tax** rate, which mainly finances security-related activities, was set at €10.0 per departing passenger from 1 January 2010, compared to €9.5 in 2009. Its income was €98.0 million and includes €7.9 million of accrued income.
- **Other income** consists especially of invoicing to the French Air Navigation Services Department (DSNA, Direction des Services de la Navigation Aérienne), and leases linked to the use of terminals. Income from the latter was up €2 million due to the transfer of certain leases from the "Retail and Services" segment.

 - Fees from shops, bars, restaurants, advertising, bank and foreign exchange and car rental rose 6.5% to €61.3 million. On closer analysis, shops in restricted areas posted a revenue increase of 11.3% buoyed by the strong rise in sales per passenger. Revenue per passenger rose 10.8% to €14.0, driven by recent commercial developments and a favourable traffic mix (growth in the proportion of international routes generating the highest spend).
 - Revenue from joint ventures is up 13.7% at €47.1 million⁴ driven by the performance of Société de Distribution Aéroportuaire (€43.8 million revenue) and Duty Free Paris, which began business at the end of January 2009.
- **Car parks and access** revenue was buoyed by the increase in the average ticket per user and traffic growth.
- The revenue from **industrial services** (supply of electricity, heating and water) fell by 6.0% due to the drop in the purchase price of gas, on which these services are indexed.
- **Rental revenue** (rentals of premises in terminals) was affected by the transfer of certain rentals to the Aviation segment, and by the decrease in rentals of ticketing desks from airlines.
- **Other revenue** mainly consisted of internal services.

Continued growth in the real estate segment: +6.9%, including 10.8% in external revenue

In millions of euros	31 March 2010	31 March 2009	2010 / 2009
Real estate	57.2	53.5	+6.9%
Internal revenue ⁵	12.4	13.1	-5.3%
External revenue	44.8	40.4	+10.8%

- **Internal revenue** fell by 5.3% to €12.4 million.
- **External revenue** was boosted by the operating of Continental Square from November 2009, and by the positive impact of recent contracts (extension of the FedEx hub in particular). It was adversely affected by the crisis (in particular cargo operators stopping their activity), and by the indexation of contracts on the cost of construction index (- 0.9% applied on most contracts on 1 January 2010).

Drop in revenue from ground-handling and related services: - 1.8%

In millions of euros	31 March 2010	31 March 2009	2010 / 2009

Security	12.5	12.4	+0.4%

- Revenue from **ground-handling services** fell by 2.6% to €32.1 million. New contracts compensated for the loss of contracts. Nevertheless, the cessation of activity of certain customer airlines in 2009 led to a loss of income of €1.1 million in the first quarter of 2010.
- Revenue from **security activities** was slightly up to €12.5 million (+ 0.4%) thanks to new contracts won in 2009.

Strong growth in other activities (+ 19.4%) driven by the acquisition of the Masternaut group by Hub télécom

In millions of euros	31 March 2010	31 March 2009	2010 / 2009
Other activities	70.0	58.6	+19.4%
Hub télécom	36.7	24.1	+51.9%
ADPI	29.0	30.0	-3.5%
ADPM	2.9	2.4	+18.1%
Aéroports de Paris	1.4	2.0	-28.6%

- **Hub télécom** benefited from a change in scope due to the acquisition in 2009 of the Masternaut group, the European leader in tracking solutions. On a like-for-like basis, the revenue of the Hub télécom group fell by 9.0% due notably to the termination of certain contracts and a decrease in the revenue of the Hub télécom région subsidiary.
- **ADPI** revenue stabilized in the first quarter of 2010 due to the maturity of the order book. Since the start of the year, ADPI has signed 19 new contracts, bringing total orders to €215 million⁶.
- Even though **Aéroports de Paris Management** did not sign any new contracts in the first quarter of 2010, its revenue increased by 18%, buoyed by the dynamism of its existing contracts.

Outlook

In February 2010, Aéroports de Paris made the assumption that traffic would grow by 0.5% in 2010. Considering the closure of the Paris-Charles de Gaulle and Paris-Orly airports in April following the eruption of the Eyjafjöll volcano, which had an estimated impact of 1.4 million passengers, and thanks to a more favourable outlook than initially anticipated for the upcoming months, Aéroports de Paris is now assuming that traffic in 2010 would be of the same order of magnitude as traffic in 2009. On this basis, Aéroports de Paris still anticipates a slight revenue growth in 2010 compared to 2009 and a 2010 EBITDA in the range of 2009 EBITDA.
